CEO Talk: Chawinda Hanratanakul, Managing Director of Krungthai Asset Management Public Company Limited and President of the Association of Investment Management Companies (AIM). The President of the AIM announced a significant role change from being a defensive player to being more proactive and defensive in order to create stability in the Thai capital market. **Photo Gallery:** Finance and Banking opens a seminar on "Investment Timing: Gold is booming, stocks are booming." **Cover Story** Gold is still rising, aiming for 70,000 baht per baht. Gold is still a bull run. Big domestic gold traders see only halfway up, with another 1-2 years to see 70,000 baht per baht, driven by supporting factors such as the trade war, geopolitical issues, the Fed cutting interest rates, and global economic uncertainty. The consolidation period is a good time for cold-money investors. Recommends dividing purchases, cautions against investing all in gold, risking losses by borrowing money to trade gold. **EXECUTIVE COACHING** Inexperienced leaders How to create results? Economic Reports **Country status** • Monetary Policy Committee maintains interest rate at 1.50% per year, expects Thai economy to grow 2.2% in 2025.
