Abstract

Presenting content about **Beautiful Homes and Decorations** Rung- Style Houses Architecture that evolves with lifestyle and nature. From a model home at the Home & Garden Fair to a steel house amidst nature; Terrarium House – a house with a curved roof that receives natural light through a courtyard and central patio; **Ornamental Plants and Landscaping** Garden Expert Biophilic – a design concept connecting humans and nature; Mini Woods in a See-Through Garden a light forest garden with just the right amount of shade, an air-purifying garden that helps solve dust problems; Urban Woodscape a forest landscape in the city, transforming traditional garden rows into a shady cafe; Plant Library 8 flowers that attract insects, helping to create an ecosystem in a beautiful garden.
