

Suning. (2020, March), Stamp carving tells a hundred stories through an area of just an inch. Confucius Institute (59) : 52-59

Why is one small carved seal so many magical things? That's because of the Chinese seal carving. Not just a normal sculpture. But it is an art that brings the art of writing calligraphy with Chinese brushes. The method of sculpting and the use of sculpting tools comes together in a neat and beautiful way. The seal consists of a pattern of Chinese characters that are beautiful swaying. The perfect layout With a skill of carving expertly Which has an area of 20 square centimeters Just this area, a sculptor had to display a work of art with a poem. One painting Or could tell a story So it can be said that "An area of just one square inch Able to contain unlimited stories and words "
